Processing Procedures

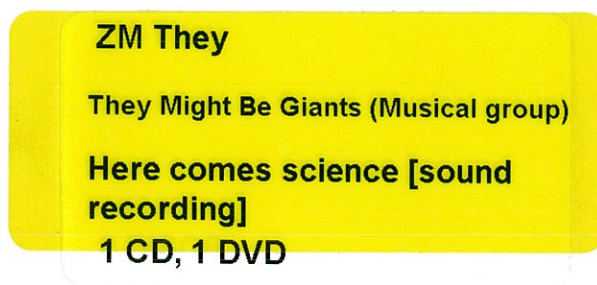

Juvenile Music CDs

11/20/09

Juvenile Music CDs will be taken out of the jewel case they come in and put in the “unbreakable” cases (Showcase Allsop CD strongboxes--ZSB1-single & ZSB2-double) by Baker & Taylor or the ACQ department.

Front of Case:

1. The bibliographic label will be attached to the front insert in the upper L corner. The label will be covered by a yellow C-View (1 ¼ X 3 1/8). If there are 2 or more CDs this will be noted on the label.

2. A small property label will be attached to the front insert in the lower L corner. Placement may be adjusted to avoid covering pertinent information as long as it remains at the bottom. Labels can be obtained from supply at HQ.

Back of Case:

1. The barcode will be attached to the back of the case at the top L corner. Placement may be adjusted to avoid covering pertinent information as long as it remains at the top.

2. The date due label will be attached to the back of the case along the left side vertically. Placement may be adjusted to avoid covering pertinent information.
